to their advantage: There are three great rocks ahead of the practical young man who has his feet upon the ladder and is beginning to rise. First, darkness, which, of course, is fatal. There is no use in wasting time on any young man who H. drinks liquor; no matter how exceptional his talents are, the great dis- attorney at Law and solicitor ig

appointment must be. The second rock ahead is specula tion. The business of a speculator and that of a manufacturer or a man of affairs are not only distinct, but incompatible. To be successful in the ATTORNEY AT LAW AND SOLICITOR IN business world, the manufacturer's and the merchant's profits only should be sought. The manufacturer should go forward steadily, meeting of the countries of Washington, Sullivan Carter, Johnson and Uniol. Collections made anywhere in East Tennesco. goods to sell, sell them; when supplies are needed, purchase them, with-DR. H. L. CAMPBELL, out regard to market price in either case. I have never known a speculative manufacturer or business man PHYSICIAN AND SURGEON who scored a permanent success. He is rich one day, bankrupt the next, Office on Main Street in Kite & Chil Besides this, the manufacturer aims to produce articles, and in so doing to employ labor. This furnishes a laudable career. A man in this avocation is useful to his kind. The merchant is usefully occupied distributing commodities, the banker in pro-

viding capital.

"The the third rock is akin to speculation-indorsing. Business men require irregular supplies of money, at PHYSHAN & SURGEON some times little, at others enormous sums. Others being in the same condition, there is strong temptation to endorse mutually. This rock should JOHNSON CITY, . TENN. on us. be avoided. There are emergencies, no doubt, in which men should help their friends, but there is a rule that will keep one safe. No man should place his name upon obligation of another if he has not suffcient to pay it without detriment to his own business. It is dishonest to do so. Men are trustees for those who have trusted them, and the creditor is entitled to to all his capital and credit. For one's own firm, 'your name, your fortune, your sacred honor,' but for others, no matter under what circumstances, only such aid as you can render without danger to your trust. It is a safe rule, therefore, to give the cash direct that you have to spare for others, and never your DENTIST indorsement or guarantee."

Mr. Ward McAilister called at the office of the Cassell Publishing Company, New York, the day before he left delivered the manuscript of his book, 'Society as I have found it," into the hands of the president of the company. Since he decided to write the book Mr. McAllister has worked on it every day and only completed it in time to leave town before the Fourth of July. A glance at the manuscript shows that tions of the public. No more interesting volume of its kind has been written since Lord Chesterfield's letters, which t strongly resembles, for it combines reminiscence with instruction, precept and anecdote running side by side through its pages. A portrait of Mr. Johnson City, McAllister, taken a few days ago expresely for the purpose, will form the frontispiece of the book.

If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place to the house. If you have never used it and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, secure a bottle and give it a fair trial. It is guaranteed every time, or money re funded.
